History

St. Michael's Mobile X-ray has been serving patients in continuing care facilities for over 14 years and has built an outstanding reputation for availability, responsiveness, quality and patient comfort.

Equipment

Our Mobile X-Ray uses advanced computerized radiography (CR) equipment. The exposure is less than used previously and the image resolution is superior.

Mission Statement

St. Michael's Health Group Mobile X-Ray employees are a group of dedicated professionals and technical staff whose mission is to provide seamless comprehensive mobile diagnostic services to customers in a variety of settings.

We practice the highest moral and ethical standards in service delivery and provide excellent care to our customers and partners.
